

Attention FCC:

I am responding in regards of LPFM service in my area. I am completely opposed to this idea. My family and I listen to K-Love on a regular basis (in the car and at home). We have found it to be a wonderful station that our entire family can listen to. My wife and I don't have to wonder if we are going to hear something that our children should not hear. Our children sing many of the songs that we hear. It is a positive alternative to other stations.

Everyday K-Love broadcasts to thousands of people on a daily basis. Many people are affected in a positive way and many lives are changed for the better. Many times people in difficult times are able to call and have someone pray and talk with them. Not many stations I know of will do that. This is a 24 hour positive programing.

If K-Love were to be replaced with LPFM our family would be greatly impacted because we would not have this wonderful programing on our radio anymore. It would be a great detriment if it is replaced. My wife and I believe in this station so much that we support K-Love financially on a monthly basis. Please do not expand LPFM because many people will be affected. This station does rely on its listeners for support in every way possible. Please do not expand LPFM. Thanks for your time.
